

Visit to IMHH, Agra on 15/01/2023.

The visit to Institute of Mental Health and Hospital today on 15-1-2023 is a very important to my trip to Agra. I have witnessed an exhibition of dedication and sincerity among the staff under the guidance of Dr. Gyanendra Kumar, Director and other supervisory staff.

The sprawling premises of the hospital is very tidy and green. The hygienic condition of kitchen is very impressive and quality of food is excellent. It can be nowhere else a government managed places would be to meet.

I am impressed by overall functioning and wish a greater future to the institution.
